

REMARKS

In the Drawings

Substitute drawings are submitted herewith to replace Figures 5A, 5B, and 5C submitted with the original patent application. Each of these figures have been amended to show that the processing unit 402 is provides a “low power mode” signal to the power management unit 408. This modifications of the drawings is consistent with the discussion in the specification on page 9, lines 18-20.

In the Claims

Claims 6 and 9-15 are pending. Claim 6 has been amended to recite that the processor unit is operable to generate a low power mode signal and the power management unit is operable to use the low power mode signal to control the power consumption of the wireless interface device by providing a first power level to the clock generator when the low power mode signal is in a first state-and providing a second power level to the clock generator when low power mode signal is in a second state. Support for the amendment can be found on page 9, beginning at line 18 and continuing to page10, line 11.

CONCLUSION

In view of the amendments and remarks set forth herein, Applicant respectfully submits that all pending claims are in condition for allowance. Accordingly, Applicant requests that a Notice of Allowance be issued. Nonetheless, should any issues remain that might be subject to resolution through a telephone interview, the Examiner is requested to telephone the undersigned at 512-338-9100.
